For the first time the exercises and teaching methods of world-renowned flutist William Bennett are featured in one workbook. After more than a decade of study with Bennett and many of his students, Roderick Seed has documented the tools that have made Bennett known for his ability to give the flute the depth, dignity, and grandeur of the voice or the stringed instrument. Topics range from how to overcome basic technical difficulties, such as pitch control, to the tools for phrasing, prosody, tone, and intonation needed for playing with different dynamics and ranges of expression. Advanced musicians will find useful exercises and techniques in this book that will deepen their knowledge and enjoyment of making music and help them in their quest to master the flute.
