"Über den Autor und weitere Mitwirkende **Alex Mandel** Alex Mandel is a geospatial scientist who has a PhD in geography and more than 12 years of experience in applying GIS to a variety of projects. He has also taught courses on GIS, geospatial programming, and Geoweb.**Victor Olaya Ferrero** Victor Olaya Ferrero is a GIS developer. He is the creator and main developer of the QGIS Processing Framework. He is also the author of *Sistemas de Informacion Geografica*, a free book about the fundamentals of GIS.**Anita Graser** Anita Graser studied geomatics at the University of Applied Sciences Wiener Neustadt, Austria, from where she graduated with a master's degree in 2010. During her study, she gained hands-on experience in the fields of geo-marketing and transportation research. Since 2007, she has been working as a geographic information system (GIS) expert with the dynamic transportation systems group at the Austrian Institute of Technology (AIT), where she focuses on analyzing and visualizing spatio-temporal data. Anita serves on the OSGeo board of directors and the QGIS project steering committee. She has been working with GIS since 2005, provides QGIS training courses, and writes a popular blog on open source GIS at anitagraser.com.**Alexander Bruy** Alexander Bruy is a GFOSS advocate and open source developer working on the QGIS project. He has also maintained a collection of his own open source projects. He has been working with QGIS since 2006, and now he is an OSGeo charter member and QGIS core developer. He is also the author of *QGIS By Example*, Packt Publishing. Alexander is currently a freelance GIS developer and works for various companies worldwide."

This produces a standalone window with map canvas it can be also embedded into an existing widget or window when using ui files and qt designer place a qwidget on the form and promote it to a new class set qgsmapcanvas as class name and set qgis gui as header file the pyuic4 utility will take care of it thi
