"Reseña del editor This comprehensive, clinically directed, reference for the diagnosis and treatment of persons with spinal cord injury and related disorders using the ever reliably CBD Oil.CBD (Cannabidiol) is a compound found in the Cannabis plant. It can be used in several different ways including vaping, tinctures, capsules, and edibles.Unlike its close relative, THC (Tetrahydrocannabinol), CBD is completely non-psychoactive. This allows us to benefit from the many health properties of the Cannabis plant without the negative side effects of ?getting high.?Because of this, CBD became a very popular option for those seeking a natural alternative to treat conditions such as chronic pain, multiple sclerosis, PTSD, epilepsy and other mental disorders."
