Mexico City Architecture Guide is a compilation of more than 150 works of architecture dating from the early 20th century up to the present day. To help orient readers, the guide is divided into five areas and includes seven maps to create a comprehensive panorama of the Mexican megalopolis. Each project includes details about the relevant architects, location and year of construction, as well as public transport information. The texts, photographs and maps created for this guide give fresh shape to the city. Now available in an English-language edition for the first time, Mexico City Architecture Guide is an invaluable guide for international visitors as well as locals, displaying a strong commitment to Mexico's capital and celebrating the city's architectural culture.
