Practise and improve your German to complete the A1-level More than 30 interactive exercises are  
waiting for you. The following book is ment to help you with the application of the German-  
language if you are a beginner. It uses my supported communication approach which I've been  
developing for the past 6 years. I tried to mimic the mechanics of my classes and put it into the  
exercises I have crafted for this book. In my classes I work from the very first minute on with pure  
interaction, making the students talk as much as they are able to. Of course it is impossible to give  
them a topic and tell them to talk freely about it at the beginning. But what I have found that is  
absolutely possible is a) to work with questions and answers and create thus as much interaction as  
possible b) to prepare a text through the aforementioned Q&A-routine so that the student can talk  
about the text freely. c) to create free applications based on the aforementioned routines a) and b).  
This book provides the opportunity to students to study on their own or with a partner or even in a  
class context with a teacher to use the suggested routines and therefore make use of the benefits  
that this methodology provides and reach the A2-level in German with ease. In case you are  
interested in a German-course with a unique methodology and guaranteed success, please go to
